

BUILT TO LAST

Every new Ultravan comes with a **2 Year Warranty on workmanship**. This covers our habitation conversion. The base vehicle (up to 3 Years) & third-party components & appliances (up to 10 Years) have their own Warranty.

YOUR SAFETY IS OUR PRIORITY

We use quality components from **premium brands**, our own standards and testing ensure safety and reliability, but for your peace-of-mind, **all** our vehicles come with a **Gas Safety** and **Electrical Safety** test Certificate from an Independent Qualified Engineer.

THERE WHEN YOU NEED US

You'll never be left in the cold with Ultravans. With Aftersales Support treated with the same priority as new customers, we'll ensure you **get any help you need as quickly as possible** so that you can get back to your adventure. You're **assured** responsive Aftercare.

Range & Design OVERVIEW

The day your life will change. Beginning the **ULTRAVAN** life..

The Ultravans Ethos.

We have a simple ethos here at Ultravans. To design, develop and build robust and quality vehicles that will stand the test of time.

We don't believe in adding unnecessary complexity to our builds. This just adds confusion for the owner. Instead, we take tried and tested technology, components and methods, and turn them into something beautiful.

That doesn't mean that we don't embrace technology or change – far from it, but it's measured, proportionate and focused. Change is good, enhancement is great – but it needs to be for a purpose. It needs to enrich and enhance the lives of our Ultravans owners.

Done right.

We're happy to say, we're attention-to-detail kind of people.

Attention to detail does not mean over-engineering or expensive. It means that an eye for detail rules our design and build processes. Those edges need to meet at 90 degrees, that fabric should be applied with the pile facing the right way, and that *hidden* pipework should be as crisp and perfect as *exposed* pipework. Just examples, but if you know, you know.

It goes without saying that we ensure everything is as safe, functional and durable as possible. Of course, compliant as well – it's just done right.

Why Ultravans?

Everybody who works at Ultravans has the same focus. We're customer obsessed, and we like to focus on the experience of buying and owning.

Our care and dedication extends way after we deliver a vehicle to you. This will likely be one of the biggest purchases you make in your lifetime, so we're here to make that as enjoyable and pleasurable as possible for you.

In a world where customer focus often goes amiss, we strive to make things as simple, hassle-free, and helpful for you. Our reputation relies upon it – and as a business with great aspirations, we hope you'll love what we do as much as we do.

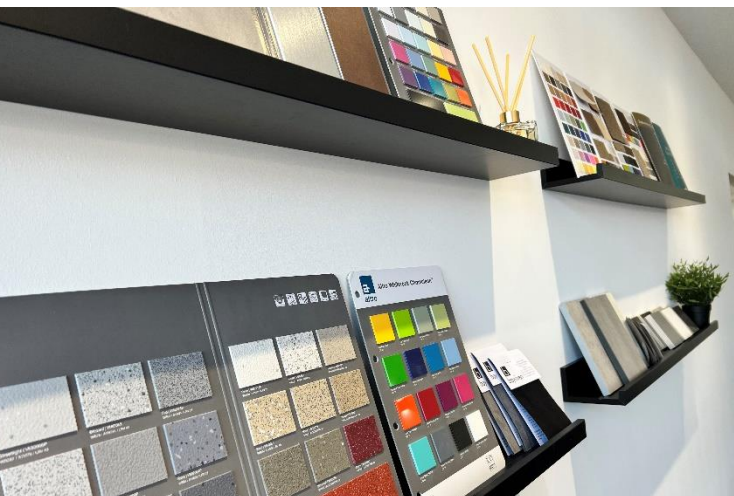

Our Focus.

'Ultra' definition: adjective "going beyond what is usual or ordinary"

We focus on Premium. It's an often used word, but frequently incorrectly. For us it's about elevating our finishes, fabrics, layout and product to focus on usability, opulence and quality. It's about finding the right balance of what's essential and then what's ULTRA.

Our interiors have a distinct feel about them; tactile materials, neutral colour schemes, warmth and comfort just ooze from every corner.

This goes hand-in-hand with simplicity. We design our vehicles to look after themselves as much as possible, with the minimum of input from you – so you can get on and enjoy yourself.

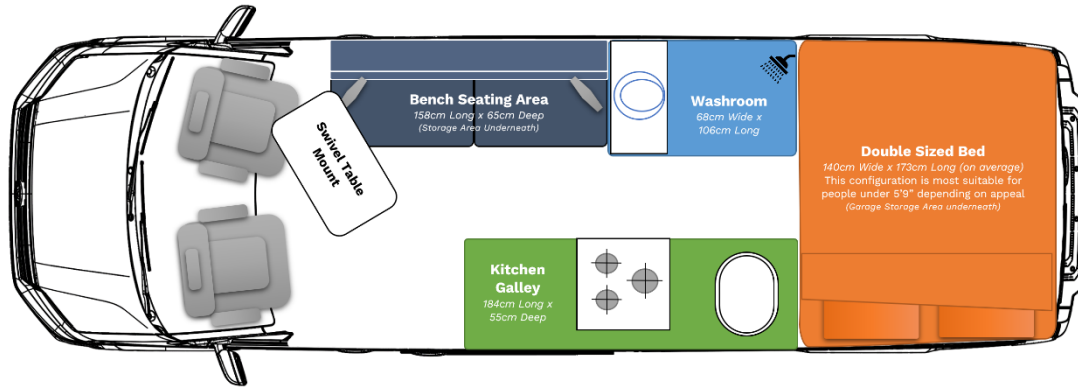

ULTRA VANS

Layout Options

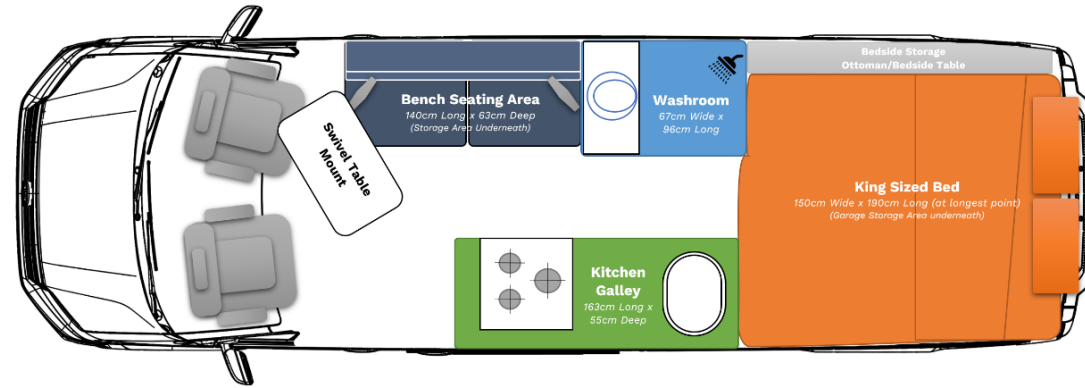

Ultra:ONE Sleeps 2 People. Transverse Bed.

Our Signature layout, with a generous Double Bed (sleeping across), larger bathroom & Kitchen area and Twin Single Cab swivel seats – best suited to those under 5'9" tall

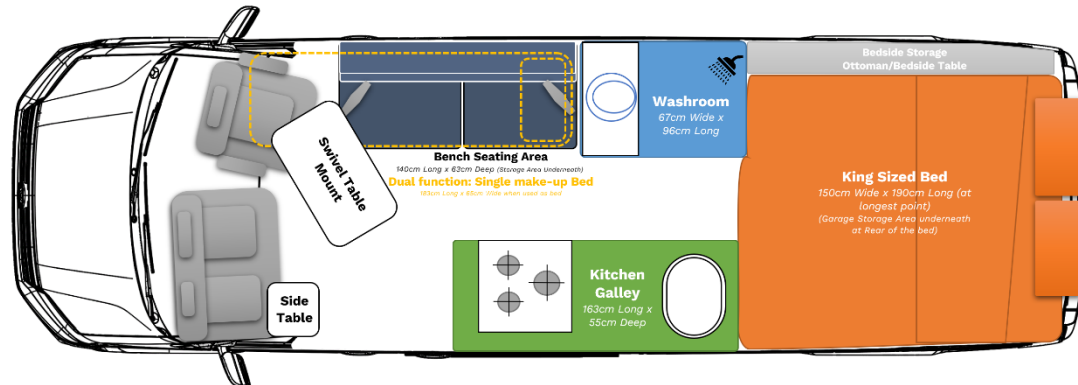

Ultra:TWO Sleeps 2 People. Longitudinal Bed.

Our alternative two berth layout, with a generous King-sized Bed (sleeping front to back), spacious washroom, with a Kitchen galley that spans the sliding door to give maximum sleeping comfort. Twin Single Cab swivel seats.

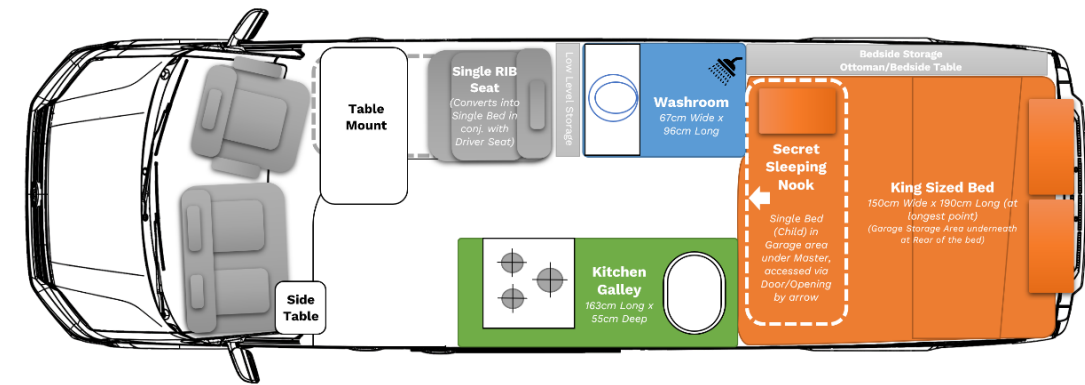

Ultra:THREE Sleeps 3 People. Longitudinal Bed.

Sleeping 2 adults in comfort, and an extra 183cm (6ft) long make-up bed for a third person in the lounge area on the bench seat, using the Driver seat as an extension. This configuration allows 3 people to travel in belted seats, with a swivel twin seat up front to accompany the swivel driver seat.

Ultra:FOUR Sleeps 4 People. Longitudinal Bed.

Sleeps 2 adults in the master, a single RIB seat to allow a third fold-out bed which utilizes the Driver seat as a leg extension. An additional bed is located transversely in a cozy nook under the master. A swivel twin seat up-front to accompany the swivel driver seat and the rear RIB seat for travel.

Get to know your Ultravan. Compare, and configure.

We're proud of the standard level of equipment that gets fitted to every single Ultravan. In a market where too many cut-corners, we like to ensure that we offer premium components that last a lifetime – with a warranty to match. All top brand items, we know they're easy to use and will give you many years of reliable service.

Your Comfort

- **Climate-controlled** Truma warm-air blown heating
- **Ambient Lighting** throughout
- Thetford Full hob, grill and oven and a generous Dometic **80L Fridge**/freezer compartment
